

TO HAVE REGATTA

Astoria Will Have Biggest Carnival Ever.

COMMITTEES ARE APPOINTED

Enthusiastic Citizens Meet in City Hall Last Night and Discuss Plans For Great Event—Officers Named.

The movement for the twelfth annual regatta was commenced in earnest last night when a number of the prominent business men of this city met in the city hall and selected the officers to manage the greatest water carnival of its kind on the Pacific Coast.

There was the utmost enthusiasm displayed by all, and that the coming regatta will be the biggest and most successful of its kind ever given by Astorians, is a foregone conclusion.

The officers selected last night for the regatta are: President, Richard M. Leathers; vice-president, Mayor Herman Wise; secretary, Richard S. Smith; treasurer, Albert Dunbar. Others members of the committee who will act with the officers in making the regatta a success are Frederick J. Johnson, C. G. Palmberg, N. Staples, H. M. Lornsen, C. A. Linenweber, M. Francisovitch, F. J. Carney, F. C. Fox, Nelson Troyer, Charles Callender, J. Q. A. Bowlby.

Hon. J. Q. A. Bowlby was appointed chairman of the Farmers' Fair portion of the big carnival, and he will have power to appoint all his committees to aid him in bringing this important part of the regatta to a favorable conclusion. Nelson Troyer was selected as chairman of the water carnival committee with the same powers as Mr. Bowlby in his department.

It is the intention to begin active work at once and committees will shortly be around to visit every one toward raising money for carrying out the plans. There will be many new and novel features this year which Astorians and the visitors have never seen and all these different events will cost money, so it is up to all loyal residents to come through with the coin.

The regatta committee of last year has some cash on hand left over from the regatta, and this will be used to start operations with. Then all the apparatus of previous years has been kept in good conditions, and can be used again. Everything has started off with fine prospects and there is hardly a doubt but that the coming regatta will be the biggest, and best ever given.

TRAVEL AROUND WORLD.

NEW YORK, May 22.—After twenty years of service as pastor of the Madison Avenue Reformed Church, Dr. Abbott E. Kittredge has offered his resignation to take effect in September, when he will set out upon a year's trip around the world. Among those suggested to succeed him is Rev. Dr. Carter of Kansas City.

Before he entered upon his present pastorate Dr. Kittredge was for sixteen years in charge of the third Presbyterian church of Chicago.

Men and women who eat fat meats coarse, florid skins. Hollister's Rocky Mountain Tea makes your skin soft and fair. 35 cents, Tea or Tablets. Sold by Frank Hart.

RETURNED TO SCHOOL.

NEW YORK, May 22.—A special to a morning paper from Plainfield, N. J., says: Daniel Norton, the son of a wealthy Idaho rancher, who disappeared two months ago from a boarding school at Watchung Crest, was found yesterday on North Avenue, Fanwood, and returned to school. His general appearance was good, showing that he had taken excellent care of himself. The lad seemed anxious to return. Norton has not yet been told that his father died on May 7. According to the boy's story, he took a dislike to an officer of the school and decided to leave. He walked to Dover, Morris county, where he got work on a farm. He remained there several weeks, later going to New York, where he wandered about for a few days.

From New York he took a train for Elizabeth. There he purchased a new hat and some furnishings and started for Plainfield, walking the entire distance. Early yesterday afternoon he reached Fanwood.

EXPORTS ARE SMALL

U. S. Chinese Exports Are On the Decrease.

AMERICAN GOODS UNSUITED

United States Manufacturers do Not Pay Enough Attention to the Wants of the Oriental Peoples.

NEW YORK, May 22.—O. P. Austin, chief of the bureau of statistics of the Department of Commerce and Labor delivered an address on the "Neglected opportunities in oriental markets," before the Manufacturers' Association last night. The address was accompanied by a large number of illustrations secured by Mr. Austin in his recent trip around the world in the interest of American commerce. Mr. Austin explained that they depicted the customs and daily life among the people of the orient and suggested the peculiar requirements of the markets which exist among them.

"The imports of the oriental countries amount to nearly two billion of dollars annually," he said, "and more than one billion dollars worth of this is of a kind of material which we of the United States might supply. Yet we are at present accomplishing little, very little indeed, in supplying this great market. In that section of the orient which lies in the tropics and has more than half its people and commerce, we supply but one per cent of the one billion dollars worth of merchandise imported and are making no gains; while Europe, which makes and sells nothing that we cannot make and sell, is supplying sixty-six per cent of the imports and steadily increasing her sales."

"The cause of our failure in the orient are quite apparent to anyone who will take the trouble to visit the countries and study the requirements of the markets as created by the habits of the consuming population. The oriental people form a distinct section of the commercial world—a section in which the commercial lines are as distinctly marked as those which separate the general great geographical departments of the world. The daily customs of life among the orientals differ in such an extreme degree from those of the people of the occident that the merchandise manufactured for use in Europe or America, as a rule is not suited to their habits of life. The meaning of this is that those who successfully offer goods to the oriental people obtain success by offering articles made in form to satisfy the habits and the requirements of these people. This is the secret of selling in oriental markets."

MANY PATIENTS KILLED. SAN FRANCISCO, May 22.—Besides the scores of employes and patients injured in the collapsing of the Agnew-state hospital on the morning of the earthquake, there were 108 killed. After considerable search a definite list has for the first time been completed. The list shows that 11 employes and 97 patients were killed among the falling brick and huge timbers also those who died later of their injuries. The complete list of employees killed as reported by medical superintendent Leonard Stocking is as follows: Officers and employes: Dr. E. A. Kelly, H. A. Braden, Miss A. Leete, John Lynch, Miss E. M. Holmes, Miss L. Burnett, Dr. L. A. Dell, Mrs. A. Thaine, Mrs. R. Walker, E. H. Curson, Miss M. Fennell.

MISS DUTTON WINS.

AUBURNDALE, Mass., May 22.—What is believed to be a new national record in women's championship golf competitions was established yesterday at the Woodland Golf Club at the opening of the annual meet of the Boston Women's Golf Association, when Miss Mary Dutton of the Oakley Country Club, and Miss Francis C. Osgood of the Country Club, played five extra holes and in the 18-hole contest before the match was decided in favor of Miss Dutton. A difficult styne on the 23 green, which Miss Osgood all but negotiated, brought an end to the long contest.

GIRL IS IMPROVING.

NEW YORK, May 22.—A cable dispatch to a morning paper from Vienna says: Dr. Lorenz said yesterday that he was pleased and satisfied with the improvement in the condition of Lolita Armour, who will remain in Vienna until the middle of next month, while her parents go on a motoring tour into Switzerland and France.

"Beyond a certain awkwardness in some of her movements," said the surgeon, "the malformation has disappeared and her strength for walking, running, jumping and dancing is perfectly normal. I have little doubt that every trace of the original trouble has finally vanished and that no further surgical attention is likely to be necessary. Still, it is desirable that I should see the patient at intervals of one or two years until her recovering is absolute. If Lolita, who is a beautiful girl, but inclined to stoutness, were of a slighter figure, the cure would have been complete before now."

A coarse, leathers complexion made unbecomingly by eruptions, calls for a general reform in living. The diet should be plenty of Hollister's Rocky Mountain Tea. 35 cents, Tea or Tablets. Sold by Frank Hart.

A distinguished Mexican visiting the East says Mexican women prefer American husbands. We are also in demand in other countries down that way.

The pension office announces that the last survivor of the war of 1812 has just died. At that rate we will clear the Spanish war pension roll in 2000, A. D.

It is safe to say that the girls of 1906 are sweeter and more beautiful than the girls of war times. The up-to-date girls all take Hollister's Rocky Mountain Tea. 35 cents, Tea or Tablets. Sold by Frank Hart.

A Montana man has discovered how to make potatoes grow in sawdust on the roof of houses. But this won't help much. What most people are waiting for is a kind of potato that will grow itself and then drop on the table ready to be eaten.

Few people, even among the beer-drinking millions of the world, know that the highest development of the brewing industry has been made in the United States. To the minds of most people anything connected with the manufacture of the amber fluid suggest the German.

Stomach Troubles.

Mrs. Sue Martin, an old and highly respected resident of Faison, Miss., was sick with stomach trouble for more than six months. Chamberlain's Stomach and Liver Tablets cured her. She says: "I can now eat anything I want and am the proudest woman in the world to find such a good medicine." For sale by Frank Hart, druggist, and leading druggists.

Five Reasons Why You Should Use

RUBEROID ROOFING

To Make a New Roof or Repair Your Old One

1. Same cost of Insurance as Iron.
2. Most Durable Roofing Made.
3. Easy to put on
4. Is Guaranteed to Give Satisfaction.
5. Has Stood All Tests of Heat and Cold; wet and dry weather.

PLEA FOR POOR MAN.

NEW YORK, May 22.—"Think of the United States as a poor man's country that must have a poor man's government," was the advice that J. P. Dooliver, United States Senator from Iowa, gave the graduating class of the Packard Commercial School at its commencement exercises last night. Senator Dooliver made a plea for the man who had risen from a humble boyhood in the country. "Character," he said, "comes up into a man from the hard plowed ground through his life; American type at its best, born of discipline and hard work, more royal than a king." The Senator's scolded morbid schools of social science that despair of any remedy save a clean sweep of existing conditions.

"The law of human life is the law of labor sacrifice and struggle," declared the speaker. "Men and nations become stronger by doing things. Heavy burdens and responsibilities make strong nations."

Not it as Rich as Rockefeller.

If you had all the wealth of Rockefeller, the Standard Oil magnate, you could not buy a better medicine for bowel complaints than Chamberlain's Colic, Cholera and Diarrhoea Remedy. The most eminent physician can not prescribe a better preparation for colic and diarrhoea, both for children and adults. The uniform success of this remedy has shown it to be superior to all others. It never fails, and when reduced with water and sweetened, is pleasant to take. Every family should be supplied with it. Sold by Frank Hart, and leading druggist.

SUBMITS DECISION.

NEW YORK, May 22.—Supreme Court Justice William J. Gaynor of Brooklyn yesterday submitted his decision as arbitrator of the differences between the Master Carpenters' Association and the Joint District Council of Greater New York, which two weeks ago resulted in a strike of the carpenters in the Borough of Brooklyn. He finds that the action of the strikers was unjustified, being violation of their written agreement. He holds that the present scale of wages must remain in force until July 1, which was the date fixed for the increase of wages in all the boroughs.

SERIOUS OGDEN FIRE.

OGDEN, May 22.—A fire that started about 2 o'clock this morning in the house occupied by the Burton Implement Company, Twenty-third street and Washington avenue, destroyed half a block of business houses on Washington avenue, entailing a loss of about \$350,000.

The blaze was fanned by a strong wind and for a time it looked as though the entire block would be doomed, but it was got under control after destroying the buildings occupied by the Burton Implement Company, George A. Lowe Company's hardware store, Farr feed store, Burroughs Grocery Store, Elite Cleaning & Dye Works and Richter's carpenter shop and Estrom's blacksmith shop. Insurance about \$175,000.

Sore Nipples.
A cure may be effected by applying Chamberlain's Salve as soon as the child is done nursing. Wipe it off with a soft cloth before allowing the child to nurse. Many trained nurses use this salve with the best results. Price 25 cents per box. Sold by Frank Hart and leading druggists.

IT PAYS

to buy Mennen's Borated Talcum because of its perfection and purity. But it does not pay to sell Mennen's Powder nearly as well, as it pays to sell an imperfect and impure substitute which, costing about half the cost of Mennen's, yields the dealer double profit. The "just as good" with which some dealers try to palm off a substitute is true any way. If it's only "just as good" for the dealer why push the sale. It's only "just as good" for the buyer who risks an unknown preparation for Mennen's. There's nothing just as good as Mennen's Borated Powder, and the dealer who says there is, risks his customer's skin and safety to make an extra profit on a sale. Have you tried Mennen's Violet Borated Talcum Toilet Powder? Ladies partial to violet perfume will find Mennen's Violet Powder fragrant with the odor of fresh plucked Parma Violets. For sale everywhere (or 25 cents, or mailed postpaid on receipt of price, by GERHARD MENNEN CO., Newark, N. J.
